

Haji Basim is a driven, passionate and charismatic artist with a unique approach to his blend of Folk, R&B, and World music. An accomplished internationally touring multi-Instrumentalist and singer songwriter, Haji Basim has created a new genre

Haji Basim is a singer, songwriter, and multi-instrumentalist (11 to date) who has created a new genre of positive acoustic music titled Urban Folk. His brand of Urban Folk music was created from the influences of several styles including Folk, Soul, Hip Hop, Flamenco, Bossa Nova and Neo Soul. In finding deep connection with other genres of music, Haji humbly makes it evident, "It is not genre that makes music great, but the ability to translate emotion and thought".

Haji draws comparisons to such memorable acts as Richie Havens, Jack Johnson, and John Legend, with the vocal quality of Sting and Seal. His past bills include Mieka Pauley and Ray Lamontagne. Haji Basim's creative music is authentic in every way, and from his walk of life, a beautiful gift of song flows and touches the soul.
